What delegates will take into their practice

All 33 responses · verbatim & unedited

- Start using USB guided puncture
- Using more uss during puncture
- Combined ultrasound and fluoroscopy guided puncture
- Puncture approach
- Use of clearpetra for flow/irrigation
- Use of access sheath for irrigating the PCS.
- Placing a clip on the skin when starting the puncture so that I can gauge the depth of the needle when I rotate the C-arm
- iPCNL
- Using irrigation ipcnl
- Retrograde irrigation - iPCNL
- Try triology cystolitholapaxy and iPCNL
- iPCNL!!
- Interpret non contrast CTs looking at the fat
- iPCNL
- Preferred the face to face presenters to the online ones. Hard to engage. Fantastic meeting well organised
- Try The iPCNL
- Will try the iPCNL irrigation through the access sheath.
- Maybe try iPCNL, and focus on anatomy in the puncture
- Giving contrast in to Calais after puncturing
- 1) More ultrasound in access; 2) May try iPCNL
- Aim for more supine pcnls
- More ultrasound puncture iPCNL Try Venus Fusion puncture Suction PCNL
- The topics were excellent. However there were too many topics and it felt rushed.
- Using irrigation via UAS
- Making the presentation more interesting like presenters))) and I will try to do more PCNL in supine position.
- iPCNL
- Consider involving the nephrologist more!
- Single use Nephroscope usage
- I will perform PCNL with irrigation system vias UAS
- New surgical approach
- I will give my best to improve myself
- iPCNL.
- i-PCNL

Suggestions & comments for future meetings

All 23 responses · verbatim & unedited

- Paediatric PCNL
- Some hands on training options.
- Excellent informative meeting about all aspects of PCNL
- Really great conference and excellent speakers. Really good educational programme
- I shall attend next time as well.
- PCNL in patients with reconstituted anatomy; managing bowel injury in PCNL
- Less lectures more focused and detailed
- More time for discussion. Program was probably too full and felt like we were always behind time.
- Thank you!!
- Great conference
- Less lectures
- Maybe not try to cover the whole of PCNL in every meeting?
- Superb Meeting and excellent speakers. Dr Liyanapathirana showed the practical way of precisely puncturing the calyx.
- Need to build in more discussion time and also try and ensure break times are maintained. With hindsight probably didn't need the online lectures as so much content in the meeting from the faculty onsite.
- Nice food. Interesting topics. Less packed schedule. We were always behind schedule. Make afternoon a lot lighter and finish earlier please
- Programme was excellent but a little too busy Would value more time for discussion
- No
- Not in summer))
- Little bit hot))) we should change the time or place)) Second : I would be give all information about all presenters somewhere to take information about them.
- NA
- Perform please meeting in any season except summer)
- Everything was good
- Fabulous meeting. Great organisation. Great program. Need to have breaks and too many talks. More time for discussion needed. Thanks for Laurian and Olly for a great meeting. Much appreciated.
